MARKED-UP COPY OF AMENDED CLAIMS ATTY. DOCKET NO. 023349-00253

- 5. (Amended) The device according to [any of the claims from 2 to 4] <u>claim 2</u>, wherein the fluid substance is gaseous.
- 6. (Amended) The device according to [any of the claims from 2 to 4] <u>claim 2</u>, wherein the fluid substance is a liquid.
- 7. (Amended) The device according to [any of the claims from 2 to 4] <u>claim 2</u>, wherein the fluid substance is a loose solid substance.
- 9. (Amended) The device according to [any of the claims from 2 to 4] <u>claim 2</u>, wherein the fluid substance is a gelatinous substance.
- 14. (Amended) The device according to [any of the foregoing claims] <u>claim 2</u>, wherein the cover has a plurality of projections which can be attached to a matching plurality of windows.
- 17. (Amended) The device according to claim 1 [or 16], wherein the punch has a casing of suitable thickness for covering the cover, at least partially.
- 21. (Amended) The device according to [any of the claims from 17 to 20] <u>claim</u> 17, wherein the casing incorporates at least one insert made of a suitable material.
- 22. (Amended) The device according to [any of the claims from 17 to 20] <u>claim</u> 17, wherein the casing is covered by a cap made of a suitable material.

- 23. (Amended) The device according to [any of the claims from 17 to 20] <u>claim</u> 17, wherein the casing (16) and the cover (12) are integral, forming a single body.
- 28. (Amended) The device according to [any of the claims from 24 to 27] <u>claim</u> <u>24</u>, wherein the casing (16) incorporates at least one insert (31) made of a suitable material.
- 30. (Amended) The device according to [any of the claims from 24 to 28] <u>claim</u> 24, wherein the casing (16) is covered by a cap (34) made of a suitable material.
- 31. (Amended) The device according to [any of the claims from 24 to 30] <u>claim</u> <u>24</u>, wherein at least the casing (16) of the punch is made from a material with deformability which varies according to the direction of deformation, the differential constriction means being made of the same material as the casing.
- 33. (Amended) The device according to [any of the claims from 24 to 32] <u>claim</u> <u>24</u>, wherein the casing has a plurality of projections which can be attached to a plurality of windows.
- 43. (Amended) The device according to claim 40 [or 41], wherein the cage or case is made of an antifriction material.
- 45. (Amended) The device according to [any of the claims from 34 to 44] <u>claim</u> 34, wherein the cage or case is housed in the seat.
- 46. (Amended) The device according to [any of the claims from 34 to 45] <u>claim</u> 34, wherein the seat has a variable cross-section, there being a cover with correspondingly variable cross-section housed in the seat.
- 50. (Amended) The device according to [any of the claims from 2 to 23] <u>claim 2</u>, wherein the actuator means comprise a delivery pipe which communicates with the

cover internal cavity; and pressurized fluid substance generator means connected to the delivery pipe.
